

Osteopathic Physicians

## Physician Notice and Beneficiary Agreement

### **Physician Notice**

The Physicians at Osteopathic Physicians of Orange County are not designated Medicare providers. As a result, no services provided are covered under Medicare part B.

### **Beneficiary Agreement**

I have been notified by my physician that services provided are not eligible for Medicare coverage. I understand that this limitation also applies to all secondary insurance coverage.

By entering and signing this contract, I understand:

1. Agree not to submit a claim or to request the physician to submit a claim for payment under Medicare, even if Medicare would otherwise cover such items and services.
2. Acknowledge that Medical plans do not, and that other supplemental insurance plans may choose not to, make payment for items and services furnished by the doctors under the contract.
3. Agree to be responsible for payment of such items or services.
4. Acknowledge that Medicare will provide no reimbursement for such items and services.
5. Acknowledge that the doctors are not limited in the amount that they may charge the beneficiary for the items and services furnished.
6. Acknowledge and agree that the Medicare beneficiary is not seeking the doctor's help during a time of medical emergency or urgent health care situation.
